

This was a great experience, I met a lot of other agents and was even able to find a resource for a water right issue I was having. Everyone was very friendly and welcoming! The AI class was full of great info and instruction. I learned a lot of tips to utilize this tool more in my business. The economy lunch speaker was also a wealth of information regarding taxes and how they are applied in our state. Really drilled in how we need to be looking at change instead of resisting it. I sat in on some of the risk management meetings, watched the finance and audit committee present the financials and attended my professional development committee meeting. I didn't take away much to contribute as they were discussing a lot of prior business. I have questions about RETI- what is that?

GRI is a new format for 2026, shootin for 1014-10/15 12 credits in Msla. Mountain of Opportunities themed, market info -tbd and legal segment biz skills. \$300 and CORE classes in person, elective can be remote
